

# A Social Justice Model for Assessment

- Speaker: Dr Pauline Hanesworth, [pauline.hanesworth@sruc.ac.uk](mailto:pauline.hanesworth@sruc.ac.uk)
- Article co-authors: Dr Bracken (Principal Lecturer, University of Worcester) and Dr Elkington (Principal Lecturer, Teesside University)
- Backchannel with electronic versions of presentation/worksheet etc.: <https://sruc.padlet.org/paulinehanesworth1/ci5mun5grrekkh0g>

# Article details

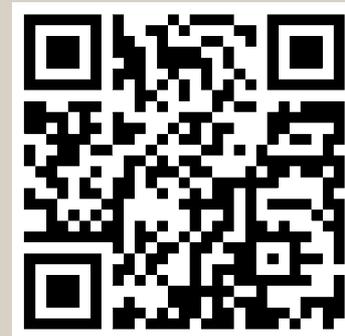

- A Typology for a Social Justice Approach to Assessment: Learning from Universal Design and Culturally Sustaining Pedagogy
- DOI:  
[10.1080/13562517.2018.1465405](https://doi.org/10.1080/13562517.2018.1465405)

1. What is a social justice approach to assessment and feedback?
2. How can such an approach be implemented?
3. How can we develop organisation change to facilitate a social justice approach?

# Activity: Individual Reflection

Why is socially just (or inclusive) assessment important / interesting to you?

[<https://sruc.padlet.org/paulinehannesworth1/ci5mun5grrykkh0g>]

# Context

Assessment  
in tertiary  
education is  
neither value-  
neutral nor  
culture-free

- Assessment is a social construct
- Assessment hierarchises knowledge
- Assessment is a disciplinary construct
- Assessment is individually value-laden

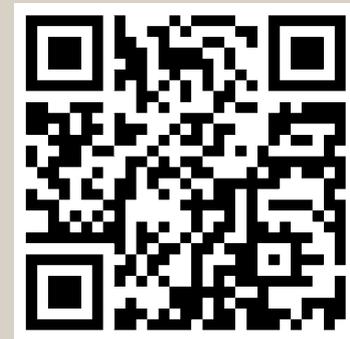

# Consequences

**MIND THE GAP**

# Activity: Individual Reflection

- What are the dominant assessment practices for your institution and subject?
- What values and knowledge types do they preference?
- What cultural, disciplinary and individual norms do they embed?
- Who might they exclude?

[<https://sruc.padlet.org/paulineh-anesworth1/ci5mun5grr-ekkh0g>]

# Theoretical framework: a social justice approach

- McArthur 2016
  - Incorporation of “the justice of assessment within higher education, and [...] the role of assessment in nurturing forms of learning that will promote greater social justice within society as a whole.” (p. 968)

# Theoretical framework: A social justice approach

## Three-dimension approach

[Fraser and Honneth:  
Redistribution,  
Recognition,  
Representation]

## Capabilities approach

[Sen and Nussbaum]  
(+ Boud's sustainable  
assessment)

# Theoretical framework: A social justice approach

## Three-dimension approach

[Fraser and Honneth:  
Redistribution,  
Recognition,  
Representation]

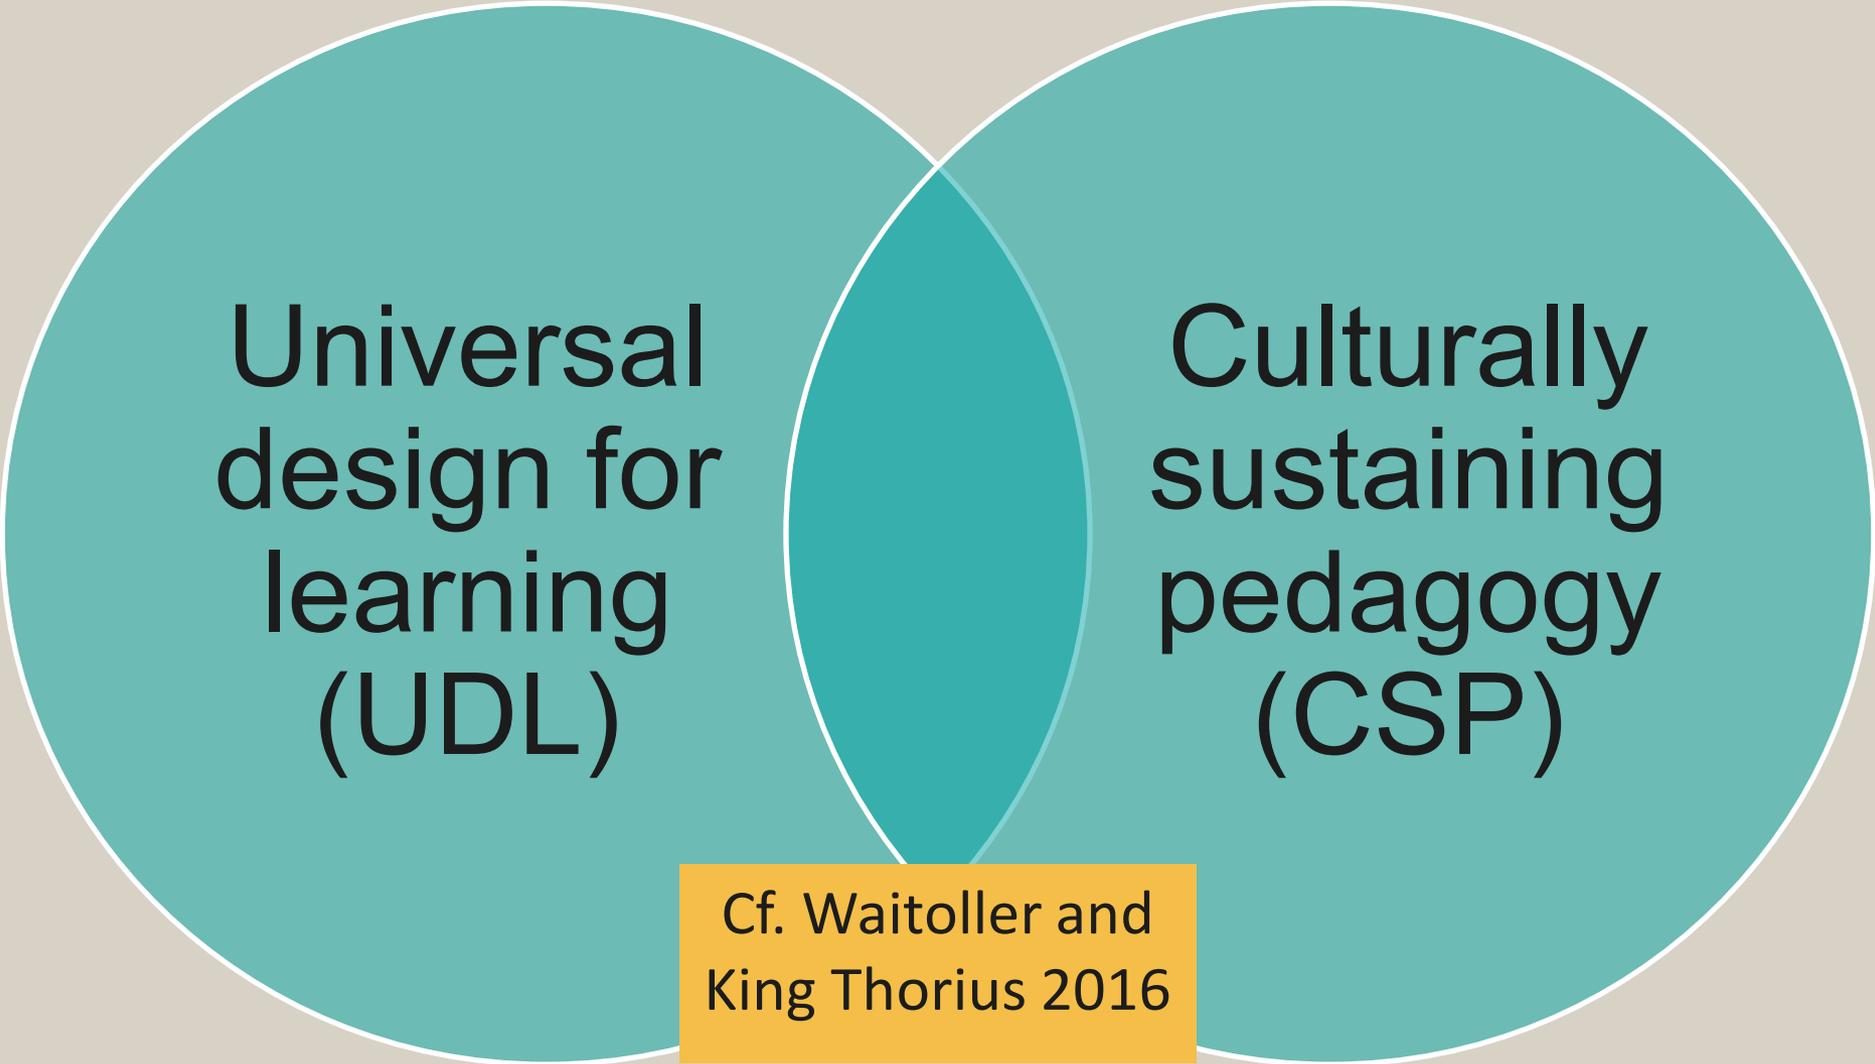

Cazden 2012

## Capabilities approach

[Sen and Nussbaum]  
(+ Boud's sustainable  
assessment)

Nguyen and Walker 2015

# Theoretical framework: Practicalising the approach

Universal  
design for  
learning  
(UDL)

Culturally  
sustaining  
pedagogy  
(CSP)

Cf. Waitoller and  
King Thorius 2016

# Universal design for learning

## Universal Design for Learning

### Recognition Networks

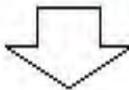

The "what" of learning

How we gather facts and categorize what we see, hear, and read. Identifying letters, words, or an author's style are recognition tasks.

Present information and content in different ways

**Principle #1:  
Provide Multiple Means of  
Representation**

### Strategic Networks

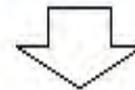

The "how" of learning

Planning and performing tasks. How we organize and express our ideas. Writing an essay or solving a math problem are strategic tasks.

Differentiate the ways that students can express what they know

**Principle #2:  
Provide Multiple Means of  
Action and Expression**

### Affective Networks

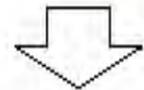

The "why" of learning

How learners get engaged and stay motivated. How they are challenged, excited, or interested. These are affective dimensions.

Stimulate interest and motivation for learning

**Principle #3:  
Provide Multiple Means of  
Engagement**

# Activity: A biscuit assessment I

For their assessment, students must “produce a high-quality biscuit”.

- How would you design this assessment to incorporate the three UDL principles?

[<https://sruc.padlet.org/paulinehannesworth1/ci5mun5grr/ekkh0g>]

## Principles of UDL

### Multiple Means of Representation

- Present information and content in different ways

### Multiple Means of Expression or Action

- Differentiate the ways that students can express what they know

### Multiple Means of Engagement

- Stimulate interest and motivation for learning

# Culturally sustaining pedagogy

Embedding  
cultural  
diversity in  
what and  
how we  
teach

Providing  
opportunities  
for critical  
reflection on  
cultural  
diversity

- Paris 2012:
  - “Seeks to perpetuate and sustain linguistic, literate, and cultural pluralism as part of the democratic project of schooling.” (p. 92).

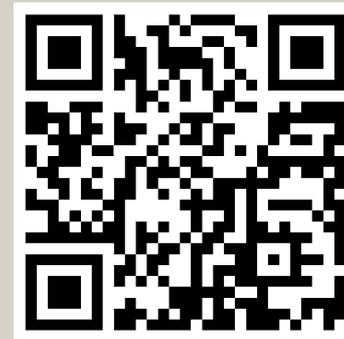

# Activity: A biscuit assessment II

Embedding  
cultural  
diversity in  
what and  
how we  
teach

Providing  
opportunities  
for critical  
reflection on  
cultural  
diversity

Returning to your  
biscuit assessment:

- How would you incorporate culturally sustaining pedagogy principles into your assessment design?

[<https://sruc.padlet.org/paulineh-anesworth1/ci5mun5grr-ekkh0g>]

# Social justice :: UDL / CSP

## Creating just assessment

- Fraser's redistribution: UDL and accessibility
- Fraser's recognition: CSP and embedding diversity

## Nurturing social justice capabilities

- Sen / Nussbaum / Boud capabilities: CSP and critical reflectivity

# Students as true partners

# Theoretical Framework

Students as true partners  
in assessment

# Social Justice Biscuits

Once again returning to your biscuit assessment:

- How would you infuse the assessment you have designed with a partnership approach?

[<https://sruc.padlet.org/paulinehanesworth1/ci5mun5grrkkh0g>]
